

THE LEARNING ALLIANCE'S FUN FAMILY CHALLENGE "MOONSHOT TREASURE HUNT"

This Week's Theme: Wheels

READ

READ a book to your child about wheels, like "What Do Wheels Do All Day?" Use movements to show how wheels move.

TALK

Name things with wheels when you are out with your child - cars, bikes, trucks, shopping carts, buses, and more. **DISCUSS** the different kinds and sizes of wheels.

PLAY

Find round household items and **PRETEND** they are wheels. Make up a game to move the "wheels" fast, slow, forward, backwards, up, down, etc.

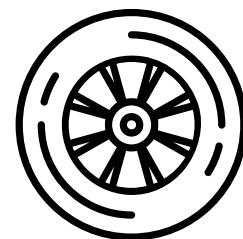

SING

SING a song like "The Wheels on the Bus" to your child while riding in the car or during transitions like bath time or bedtime.

CREATE

Use paper, crayons, markers, or a pencil to **DRAW** "wheels" or trace a round object on paper with your child, then color them in.

Post your child's Moonshot activities on Facebook or Instagram to win a prize!
